ICT- enabled tools for teaching and learning

1. **Classroom teaching:** The institute has adequate facilities for the purpose of teaching and learning. These include well equipped classrooms that have good projection facilities as well as other audiovisual aids. Every department has a seminar room which is used for various scientific activities like seminars, journal clubs and case presentations throughout the year.
2. **Clinical facilities :** These are as per the norms of the Dental Council of India. These include latest state of the art dental chairs, instruments and equipment. Before the student enters clinical training, he/ she undergoes pre clinical training on equipment like mannequins, typodonts etc so as to attain the motor skills necessary for clinical exposure.
3. **Basic life support, CPR, injection technique** are also taught on specialised equipment.
4. **Web based learning:** Students have online access to various online journals and e- books through the online library.
5. **Mobile learning/ flip classes:** During the pandemic teachers had created WhatsApp groups for online classes, online videos and presentations on various topics and online assessments and internal examinations.
6. **Educational networking:** As a part of ICT students are shown basic as well as various latest procedures in all the specialities through webinars and you tube.
7. **Community based education:** As a part of out teaching programs the PHD department takes the lead to have community based education such as camps, slide shows and education of the rural masses for good oral hygiene.
